News No.: 4

Date: 28. April 2009

INVOLVES:  Motor

Accessories

With this bulletin, we would like to introduce the new PT100 line for encapsulated motors (CT).  
The standard CT Pt100 lead is now **KTW & ACS approved** and the new Hi-Temperature PT100 is able to work in **90°C ambient**.  
The standard CT Model numbers remain unchanged.  
For tripping temperature/ resistance consult kit manual.
